

## RENAISSANCE ART - YEAR 6

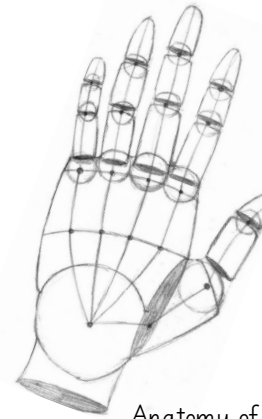

The **renaissance** movement originated in Italy in the 15th century in around 1417.

Renaissance refers to the 'rebirth' of Greek and Roman culture, in particular: architecture, sculpture and painting. It involved portraying subjects more realistically, introducing the concept of **perspective**.

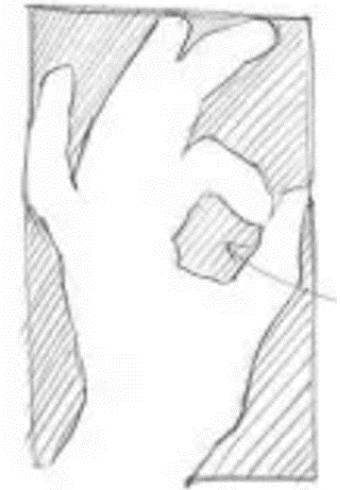

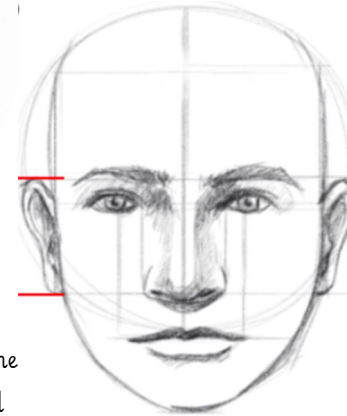

This picture shows the **horizon** line in yellow, the **perspective** lines in red and the **vanishing point** where they meet.

## SKILLS & TECHNIQUES

Anatomy of the human hand

Proportions of the face

Positive and negative space

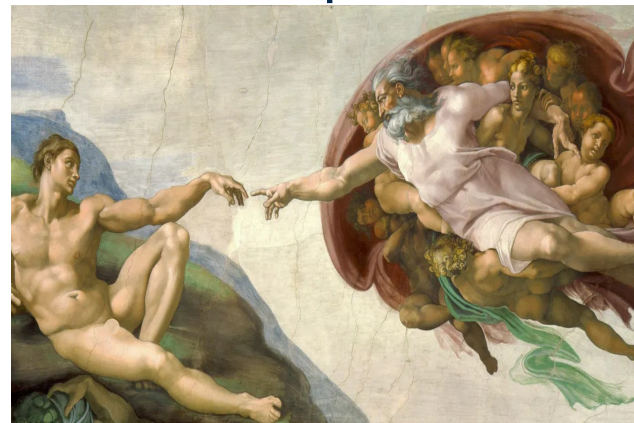

## RENOWNED PAINTINGS
